

NOVOINVENT 2023

Abhishek verma

MCA (21016)

1. Self intro
 2. Project
 - 3.stack
 4. Prime
 5. Encapsulation
 6. reverse a string
- Second Round

Akash Verma

1902310100008

CSE

- 1.what is oops
- 2.describe all oops concept
- 3.string palindrome
- 4.pattern program
 - 1
 - 232
 - 34543
 - 4567645
- 5.sort an array
- 6.complexities of sorting algorithms
- 7.second highest salary in sql
- 8.primary key and foreign key
- 9.unique key and primary key
- 10.concept of interface

Harshita Rohilla

Roll no. -1902310100032

Branch CSE

- 1.Introduce yourself
- 2.recursion
- 3.maximum element in an array program
- 4.reverse a string
- 5.program to insert node
- 6.linked list
- 7.stack
- 8.update and select query
- 9.join query

Name: Abhishek Sharma

Roll no: 1902310100003

Branch: CSE

Question Asked

1. Tell me about yourself
2. Oops
- 3.oops principles
- 4.Interface
- 5.stack,queue, linked list
- 6.tree traversal
7. Palindrome string
8. Program to add two linked list
9. Reverse linked list
10. Inner join
11. Query
12. Candidate key, primary key

Divya Shinde

Roll no. -1907830100028

Branch CSE

1. Introduce yourself
2. principal of oops explain in detail
3. liked list
4. adding two linkednlist
- 5.anagram string
- 6.create node and insert linked list
- 7.keys and its types
- 8.query for 3rd highest salary
- 9.join and outer join query
- 10.final
- 11.try catch and final block
- 12.Dynamic memory allocation

Ansh Bhardwaj

CSE

1902310100017

1. Self intro.
2. About project.
3. Reverse string program.
4. Changes in project.
5. Select and update query.
6. Encapsulation.

Mohit kaushik

CSE (1902310100057)

1. Self intro.
- 2.what is encapsulation.
3. Reverse string program.
4. Reverse a array
5. Features of java

Mansi Tyagi

CSE

1902310100053

1. Self intro
2. Joins
3. Difference b/w inner join and left join
4. Join Query
5. Linked list
6. Malloc and calloc
7. Program Input: aaabbcc, output:a3b2c2
8. Primary and foreign key

Time complexity

Merge sort

Complexity of different sorting techniques

Jatin verma

CSE (1902310100036)

1. DBMS QUERIES
2. WORD PROBLEM
- 3ltr 5ltr 8ltr cup there fill it with 4ltr
3. Sort the array
4. About my project
5. OOps concepts
6. Types of Inheritance
7. All CRUD Queries

Name : Guru Charan Gupta

Roll no : 1902310100030

Branch : CS

1. Introduce yourself
2. deletion in double ended queue program
3. oops in java
4. What is Linked list
5. Reverse Linked list program

Abhishek Gautam

Cse-1902310100004

- 1.Introduce yourself
2. Meta tag
- 3 Difference between java and c
- 4.difference between java and python
- 5 What is compailer
- 6.linked list and its types
- 7.explain project
8. Explain Sql and nosql
- 9.Dynamic memory allocation
- 10.Dangling pointer
- 11.Heap
12. which data structures used in Your project.
- 13.Oops

Pinku Kumar

IT (1902310130018)

1. Self intro.

2. Project
- 3.what is encapsulation.
4. Reverse string program.
5. Multidimensional array
6. JavaScript function
7. Doubly linklist
8. Pallindrome number
9. List and tuples
10. SQL command
11. Oops in java

Name:Ritik Singh

Section:B

Branch:CSE

- 1.introduce your self
- 2.kaden's algorithm
- 3.binary search tree and its implementation.
- 4.sql query
- 5.puzzle

Hemant Gupta

CSE ->1902310100033

1. Introduce yourself
- 3ltr 5ltr 8ltr cup there fill it with 4ltr
3. Sort the array
4. About my project
5. Oops concepts
6. Types of Inheritance

Anmol Tyagi

CSE

1902310100016

- 1.Intro
- 2.About project
- 3.Sort the array
4. 4 litre water has to be filled in 3,5,8 litre bucket
- 5.Oops concept
- 6.Multiple inheritance

Rahul Maheshwari

IT (1902310130022)

1. Self intro.
2. Project
- 3.what is encapsulation.
4. JavaScript function
5. Doubly linklist
6. SQL command
7. Oops in java
8. What is anagram and its code

Neeshu Kumar

1902310100059

Interviewer-Manik Gulati

- 1.Self Introduction
 - 2.OOPS
 - 3.polymorphism
 - 4.Overloading and Overriding
 - 5.pattern
- 1
232
34543
4567654

- 6.Recursion
 - 7.String palindrome or not using recursion
 - 8.Super key in java
 - 9.delete a node in linkedlist from specific position
 - 10.SQL concept
- Order by
 - Group by
- 11.sql query for removing duplicate records
 - 12.sql query for find nth salary

Nipun saini

CSE (1902310100061)

1. Self intro.
2. Project
- 3.what is encapsulation.
4. OOPS in java
5. linklist insertion
6. SQL command
- 7.project changes
8. Joins

Magan Sharma

CS (1907830100051)

1. Self intro.2. mysql query
- 3.what is polymorphism.
4. linklist
5. stack
7. Oops in java
8. joins

Rituraj Jha

IT (1902310130023)

- 1.self intro
- 2.project
- 3.Joins and index
4. Polymorphism
5. Encapsulation
6. Why array is better linked list
7. Creation of table in dbms and insert the values

Niket Paliwal

CSE(1907830100061)

1. Self intro
2. Project
3. Different b/w javascript and typescript
4. OOPs all
5. Joins
6. Responsive design related to media queries
7. Advantages of linked list over array
8. Palindrome program
9. Can stack be implemented in queue
10. 1,4,6,9,11 series find next number
11. Swiggy uses which data structure
12. Does self join and right outer join are equal
13. Abstraction and encapsulation similarity.

Name: Shubham Shrivastav

Branch:MCA

Interviewer Name: Pankaj Verma.

1. Self Intro
2. Joins
3. Stack program
4. diff b/w primary key and foreign key
5. About Project.
6. Diff b/w Stack and queue.
7. Linked list.
8. Palindrome Number Program.

Name- Neeraj

Roll no.-1902310100058

Interviewer- Aryan Dhiman

1. Self intro
2. 3 project changes
3. Internship role and about internship(i mentioned internship)
4. Reverse a string in java
5. Dbms data types and difference bw varchar and char
6. Dbms queries for create, update, relation algebra question query.
7. Java vs C vs Python
6. Program for panagram in any language
7. Oops concepts all
8. Merge sort and its complexity
9. Time complexity and space complexity.

Name: Megha

Roll no: 1902310100054

Branch: CS

Interviewer: Simran Kaushal and Akshara Bhardwaj

Questions asked:

- 1 Introduction

- 2 Complexity related questions
- 3 Recursion program
- 4 List
- 5 Dictionary
6. Situation based questions
7. What to make coding or situation more efficient and how. Give examples and write programs
8. Decorators in python
9. Print pattern
Input - aaabbcc
Output - a3b2c2

Ananya Gupta

(Second Round)

1902310100011

- 1 coding ques
- 2 changes in project
- 3 laptop configuration
- 4 encapsulation

Name: Vipin Tyagi

Branch:MCA

Interviewer Name: Pankaj Verma.

- 1.Self Intro
- 2..Difference b/w Stack and queue
- 3.Joins
4. diff b/w primary key and foreign key
- 5.About Project.
6. Html tags(Anchor tag)
7. Linked list
- 8.CSS

Name :sanjay kumar

Branch:CSE

- 1.intro
- 2.program for reverse string
- 3.polymorphism
- 4.linked list
- 5.constructor and destructor
- 6.virtual functions

Jatin Verma

CSE (1902310100036)

1. OOPS Concepts
2. About project
3. MongoDB queries
- 4.Sql queries
5. Joins
6. Abstraction in detail
7. Linked list
8. Reverse linked list without collection framework
9. Implementation of joins

10. Java basic

Name : Shweta Sharma

Branch : ECE

Roll no :- 1902310310061

Questions Asked :-

1. Introduce yourself
2. What is Encapsulation ?
3. What is Polymorphism?
4. Difference between Array and linked list ?
5. Difference between polymorphism and Abstraction ?
6. Program of Bubble sort
7. Program of print series from 1 to 100 without using loop .
8. OOPS concepts with examples in Java
9. Why Array is better than linked list ?

Name: vaishnavi sengar

Branch: cse

Roll no. : 1907830100104

Question asked:

1. What is magic number
2. Armstrong number
3. Palindrome number
4. Program to check a palindrome number
5. what is dbms
6. sql queries
7. polymorphism
8. inheritance
9. multilevel inheritance
10. what is data structure
11. implementation of data structure
12. Pattern
A
BB
CCC
DDDD
EEEE
13. Oops concept
14. joins and it's types
15. primary key
16. c or java which use more oops concept. Give one reason
17. Dictionary

Ankur Sharma

1902310100015

CSE

Questions:

1. Introduction
2. About my Project
3. Deadlock

4.Binary Search

5. Private vs Protected.

6 change in my Project

Name: Anand Gautam

Branch: CSE

Roll no: 1902310100010

1. Self

2.What is OOPs

3.Android Project

4.Types of css

5.Reverse Linked List approach

6.Time complexity Selection,Insertion

7.which best Time Complexity in Bubble, selection, Insertion

8.Find Next two elements 3,5,35,10,12,35,17,19,35

9. Stack Overflow

10. Types of Join

11. What is Self Join

12. What is Virtual Machine Error

Mohit pal

1902310100056

1.Oops and it's concept

2.linklist

3.sorted array

4.delete a node in linklist

5. Multi threading

6.sql queries

7.pathern program

Km Karuna

IT (1902310130013)

1 Self intro

2Abstraction

3Incapsulation

4 Advantages of stack and linked list

5 difference between primary key and super key

6 program linkedlist. reverse,insert

7 circular queue

8Dictionary

9id

Tushar sahu

1902310100113

CSE

1. Introduction

2. Encapsulation with example in real world

3. Sorting an array

4. Types of polymorphism

5. Inheritance with types

6. Puzzle (5lt 3lt 8lt)

7. Abstraction with example in programing

Name - riya sharma

Roll no- 1902310100083

Branch- cse

1. Intro

2. 2 questions based on Sql query

3. Joins and à ques4. Prgrm based on Linked list have loop cycle or not

5. String palindrome prgrm.

Name:- nitin sharma

Rollno.- 1902310100064

Branch: CSE

1.intro

2.project

3.linked list

4.doubly linked list

5.application of linked list

6.application of stack

7.what is file handling

8.function in c

9.html

10.reverse of a string

11.pallindrome

12.dbms normalisation query.

13.recursion and recursive func.

14.implementation of binary search tree.

15.pre-processor

16.wht is the use of header file.

17.implementation of dfs.

18.implementation of bms.

19.polymoriphism

20.inheritance and classes

Time duration : 1 hours 10 minutes

Name: Shivani Tyagi

Roll No:- 1902310100100

Branch:- CSE

- 1.Tell me about yourself
2. Class and I'd
3. About project
- 4.oops concept with example
5. Query to create database and table
6. Query to insert and update
7. Bubble sort
- 8.why we use getch() in c

Second round

Name: Deepanshi Sharma

File no. : 21570

Department: MCA

- 1.Tell me about yourself
- 2.Tell me about project
3. Overloading concept
- 4.Join
5. Types of join
6. Difference between left join and Cross join
7. How to create a table
8. Reverse a array
9. In sorted array, take any number from the user and match the number in the sorted array
10. Constructor
11. Difference between array and list
12. HTML
- 13.CSS
14. javascript
15. Overriding concept

First Round:

Name:Yuvraj Singh

Rollno: 1902310100123

1. Introduction
2. about project (checked the souce code)
- 3.what is dbms
- 4.ACID properties
- 5.What is sql
- 6.Why sql is used
- 7.CRUD operation
- 8.Sql query to display employee_id of employees whose salary is between 10000 and 15000
9. Sql query to count no of employess working in project p1
10. Data Structures
11. Implementation of stack using array and linked list
- 12.Sum of diagonals in matrix
- 13.Magic number
- 14.Armstrong number
- 15.Front end language
16. Opening and closing tags

17.What are joins and different types of joins

Shubham Tyagi

Roll no. - 1902310100104

Branch - CSE

1. Tell me about yourself.
2. Favourite language
3. Dictionary
4. Diff btw encapsulation and abstraction
5. Polymorphism
6. Diff btw Primary key and Candidate key.
7. Program to calculate sum of numbers upto n.
8. Program to take a string and reverse it.
9. Implementation of selection sort
10. About project

Name:Sweety Sharma.

Roll no:1902310100108.

- 1.four pillars of OOPS.
- 2.difference between stack and queue.
- 3.malloc and calloc.
- 4.arrays and list.
- 5.check this string is palindrome or not.
- 6.intro.

Name:- Shivam Choudhary

Rollno.- 1902310100096

Branch: CSE

- 1.intro
- 2.project
- 3.linked list
- 4.linked list implementation
- 5.application of linked list
- 6.so many questions from project
7. Question from internship
- 8.html tag
- 9.what is html
- 10.reverse of a string
- 11.pallindrome
- 12.dbms normalisation
- 13.queries order by ,Desc
- 14.implementation of binary search tree.
- 15.binary search questions on online compiler
16. sorted binary array
- 17.polymorphism
- 18.inheritance and classes
19. Object
- 20.abstraction
- 21.Encapsulation
22. Find 3 highest salary

22.what are joins ,left right

23. What is MVC

24.primary key

25.unique key

26.foreign key

27.overloading

28.overriding

Time duration : 1 hours

Name: Utkarsh Mishra

Roll no.: 1902310100115

Branch cse

1.Introduction

2.Something about project

3.What is flutter

4. Which language used by flutter

5. Which technology same as flutter

6. Reverse an array

7.Sort an array

8.query to create data base

9. Query to create table

10. How to show one to many and many to many relation

11. Primary key and its use .

Second Round

Name: Deepanshi Sharma

File no. : 21570

Department: MCA

1. Tell me about yourself

2. Tell me about your project

3. HTML, CSS, Javascript

4. SQL Queries- Update, Join, Foreign key, Types of keys, Primary Key, Unique key

5. Difference between Primary key and foreign key

6. Difference between delete and truncate

7. OOPs Concept-Polymorphism, Encapsulation, Abstract method, abstract class, Interface

8. Array and linkedlist

9. Sql query-To find second maximum salary from the table

10. Sql query- How to update column in a table

Name- Ruman Ali

Roll no- 1902310100085

Sec- B

Interviewer- Bhupinder pal

1. introduce yourself.

2. method overloadig and overriding.

3. Explain OOPS. concepts and class.

4. difference between interface and abstract .

5. Why we use interface.

6. types of inheritance.

7. what is link list and types of link list.

8. print the link list in. reverse order.
9. print the third last. element of the link list.
10. Super in java .
11. joins and importance of joins.
12. primary and foreign key.
13. Scanner class and util.
14. Normalization.
15. Types of normal forms.
16. find the nth salary. using queries.
17. Write any query using Inner join.

9.Program to print square of matrix

10.Array and link list

Name: Shagun Chaudhary

CSE

1.Introduce yourself

2.Java 8 features

3.implement them with example

4. All about project

5.What is Api and apikey

6.Searching programs both

7.Which is best sorting algorithm implement that and why

8.. Ddl and dml commands with queries of each

9. Difference between truncate and delete

10..join queries why joins?

11. What is Data structure

12. Run Pallindrome number program

13. Why we use header files

14.Reverse a linked list

15. Different approach and implementation

Name: Km Bhumika

Rollno:1902310100044

Branch:CS

Round1

1. Introduction
2. Types of functions used in programming languages.
- 3.Call by value, reference
- 4.Program based on pointers
5. Basics of DBMS
6. Joins
7. SQL, MySQL
8. What is MySQL queries
9. Query on inner join, outer join

Name: Shubham Shrivastav

Branch:MCA

Round 2

Interviewer Name: Harshdeep Singh Walia.

1. Introducing.
2. About Project:3. Program Input 1,2,3,4;
Output 1,3,6,10;
4. Input Hi I am Shubham
Output iH ma mahbuhS
5. Right Join query
- 6.Marquee Tag
7. Iframe tag
- 8.Linked List
9. Queries
- 10.ACID properties.

Round 2

Name: Yuvraj Singh

Roll No : 1902310100123

Branch CSE

All questions were asked related to my project only.

It was a android application and questions were about

Android lifecycle

What is build

What is gradle

Source code

Asked me to explain the logic behind the app.

Round 2

Name :Ritik Singh

Roll no.:1902310100081

Branch CSE

1. About my project
2. Add two larger no. Which cannot be stored in a integer type variable

3. Find kth element in a linked list.

Round : 2

Name : Niket Paliwal

Roll no : 1907830100061

Branch CSE

1. About my project

2. Encapsulation

3. Program input 1,2,3,4;

Output 1,3,6,10;

4. Input Hi I am Niket

Output iH ma tekiN

5. Right join query

6. Foreign key query

7. Laptop configuration

Name:- Shubham Nirmaniya

Rollno.- 1902310100103

Branc:- CSE

Round - 1

1.Tell me about yourself

2.Ways to apply CSS to a html file

3.Reverse a linked list

4.Program to print Pyramid

5.Next two numbers after.....

3,5,35,10,12,35,17

6.Clause used with select query

7.Types of data structures

8.Advantages of linked list

9.Complexity of bubble sort

10.Self join and types of join in SQL

11.Alternate key

Name - Mohit kumar

Roll no - 1907830100057

Branch - CSE

- 6)what are Interface and types
- 7) print first five Fibonacci series
- 8) Print at 10 position Fibonacci series
- 9)second largest in array
- 10)what are constraints
- 11)queries of MySQL
- How create the DB and Table ,How insert
- 12) Differences between unique and primary key
- 13) why primary key not null

Time -44 minutes

• **Name : KHUSHI CHAUDHARY**

* Section - 3A

* Roll no : 2102310100055

* Duration : 30 Min

* Interviewer : Nikhil Sharma

Questions:-

1. Tell me about yourself
2. Both of my Project
3. Changes in project
4. What is Gradle in Android
4. Question- reverse a string 5. Remove duplicates from an array
6. Pattern program

```

      #
    # #
  # # #
# # # #
# # # # #

```

7. Different between primary key and foreign key
8. Difference between method and constructor.

Name : Devashish Tyagi

Roll no : 2102311540016

Questions :

- *1. Introduction and my technical skills
- 2 . About project (about technologies used in project)
- 3 . Difference between method and function
- 4 . Change column in a table

- 5 . Truncate and drop
6. Update in a table with implementation
- 7 . SQL left join and right join (with queries in MySQL workbench)
8. Reverse string
- 9 . Anagram string
9. arr = {1,2,3,4,5,6,7,8,9}
- Number divided by 3 -> fizz and by 5 -> buzz
- O/p = {1,2, fizz ,4,buzz ,fizz ,7,8 , fizz , buzz}
- 10 . JavaScript is object oriented or not .
11. Final and finally(why finally is used) , throw and throws ,
- 12 . Polymorphism and inheritance with code implementation
- 13 . 3 + "3" o/p
- 14 . Type of +3
- 15 . == and ===
16. Use Effect in react
- 17 . Routing in react
- 18 . Make 2 components in react which shows routing (one of the component is button)

Sec : 3B

1.) Introduction

2.) Given a binary search tree A, where each node contains a positive integer, and an integer B, you have to find whether or not there exist two different nodes X and Y such that $X.value + Y.value = B$.

Return 1 to denote that two such nodes exist. Return 0, otherwise.

$1 \leq \text{size of tree} \leq 100000$

$1 \leq B \leq 109$

```
    10
   /\
  9 20
```

B = 19

3.) Given an integer A. Compute and return the square root of A.

If A is not a perfect square, return $\text{floor}(\text{sqrt}(A))$.

The value of A can cross the range of Integer.

NOTE:

Do not use the sqrt function from the standard library.

Users are expected to solve this in $O(\log(A))$ time.

input 11

output 3

4.) ll1 -> 1 3 6 7 ll2 -> 2 4 5

output = 1 2 3 4 5 6 7 time = $O(n)$

5.) difference between where and clause

Round 2

Question:

Change in project

Like I use the SQL query in java by using jdbc but he said done this same thing with the SQL workbench and this all changes must reflect on your webpage.

All API calls

DSA

- 1.Linklist display
- 2.Linklist insert
- 3.you already have a linklist with 1, 2,3,4,5 and add 6,7 by insert method

Extra questions

- 1.Other than java any other programing language you know
2. Why you prefer java.
3. What will be your other skills you want to work in future.

Time duration:45 mins

Name:Khushi Garg

Branch:IT

Questions asked

- 1.Introdrouce Yourself
- 2.What is Semantic html
- 3.Type of List in html
- 4.Oops
- 5.Multithreading
- 6.Program to reverse a number
- 7.why we use main function
- 8.what is data abstraction

Name: PrinceTyagi
Roll No: 2102310130022
Branch:IT

Round-2

- 1.Introduction
- 2.Project
- 3.Change in project
4. reactjs
- 5.second largest element in array
- 6.print unique element in an array
7. flow of stracture in react
- 8work of node modules
9. work of package.json

Roll no. 2302310140115
Name. Vivek Nishad
Branch. MCA

Round 1.
Ask question-

1. Introduction
2. Sql query
3. Second/First max salary
4. Duplicates element in array
5. Haw many time Occurring element in array
6. What is array
7. What is String
8. Stream
9. Drop vs Truncate
10. Doubly Linkedlist

Name: Yash Tyagi
Roll No: 2102311530059
Branch:cse (Ai&MI)

Round-2

- 1.Introduction
- 2.Project
- 3.Change in project
- 4.Pattern

***ROUND* - 1**

Questions

- *1* . Introduce Yourself**
 - *2* . Which Programming Language You Prefer and Why?**
 - *3* . Difference between Padding and Margin**
 - *4* . Types Of List in HTML**
 - *5* . How to Link CSS**
 - *6* . What is Flex**
 - *7* . Concept of oops**
 - *8* . What is Callback Function in JavaScript**
 - *9* . What is Recursion**
 - *10* . What is Multi threading**
 - *11* . Drop vs Truncate**
 - *12* . SQL Query**
 - *13* . What is the difference between *==* & *===***
 - *14* . What is Javascript and its Advantages**
 - *15* . How to create table in HTML**
 - *16* . Let, Var, Const**
 - *17* . Promise in JS**
-

Duration* *:- 27 minutes

Name: Rishabh tyagi
Roll no : 23023101400
Branch: MCA

- 1. stack
- 2. oops concept
- 3. pillars of oops
- 4. linkedlist
- 5. linkedlist delete a node
- 6. D/w primary key and foreign key
- 7. JVM and JDK
- 8. Flex
- 9. Padding and margin
- 10. Pattern program
- 11. Left join and right join
- 12. EC2 and S3

13. Malloc() and calloc()
14. Delete and Truncate
15. SQL query
16. Hosting
17. Let,var,and const
18. Multiple inheritance
- 19.DDI and DML

Round 1
Ask questions -

- 1.Introduction
- 2.Sql query
- 3.second/first max salary
4. Remove duplicate element in array
5. Oops
6. Oops feature
7. Polymorphism
8. Encapsulation
9. Inheritance
10. Types Of inheritance
11. Swap two numbers without using third variable
12. Prime number program

Roll no. 2302310140028
Name. Ayush Kumar
Branch. MCA

Round 1.
Ask question-

1. Introduction
2. SQL queries
3. Method Overloading v/s Method Overriding
4. Armstrong number
5. datatypes in javascript
6. DDL, DML, DCL
7. Abstraction in Java
8. Palindrome number
9. Delete vs Truncate
10. Hosting
